Loch Achray is one of the most charming little lakes in Scotland. Where it is inferior to its rivals in size, still its beauty is paramount; at its head commences that unrivalled mingling of purple crag, silver-grey birch, oak-copse, and green herbage which is known as "the Trossachs." Overlooking its shores is the massive mountain of Ben Venue (2,393 feet high).

Loch Achray is one of the most charming little lakes in Scotland. Where it is inferior to its rivals in size, still its beauty is paramount; and its head commences that unrivalled mingling of purple, magenta, silver-grey birch, oak-cope, and green herbage which is known as "the Trossachs." Overlooking its shores is the massive mountain of Ben Venue (2,393 feet high).

At last I send you a real good Scottish view. Even though I have not seen this spot, it is very much like the scenery around the world-famed Loch Lomond. I have had a splendid holiday, but I have been pulling a little just now - not exactly home sickness. Please don't say "What would it be if you went to France?" It is not the same at all. How do you like my post-photographs? Most people seem to think it is very good, and I hope you do. Did I tell you that I liked yours very much? Will answer your letter when I recd 69 again.
